

MasterMover®

Worldwide Electric Tug Solutions

SM100+ SS

Smart Mover

SM100+ SS | Stainless Steel Electric Power Tug

The SmartMover pedestrian operated tug is a versatile machine for moving loads in many different manufacturing processes. This frequently includes environments that require a specific level of cleanliness or where the machine needs to be corrosion resistant. For this reason the SmartMover is also available in 316 grade stainless steel as the SM100+ SS. This is often used by food processing and pharmaceutical companies to remove the risk of injury caused by manual handling of heavy loads. The SmartMover is a compact machine that can pull loads up to 1,200 kg making it ideal for moving trolleys and mixing vessels in confined spaces that would otherwise be moved by hand.

Industries

Suitable for use in a wide range of applications and sectors

Pharmaceutical Manufacturing

Food and Beverage

Chemical

Food and Beverage

KeyBenefits

1 year full guarantee

- Avoid manual handling injury risk
- Can move multiple trolleys
- Ideal for mixing vessels or vats
- Corrosion resistance for hygiene
- Push button connection to load
- Easy to use
- No operator licence required

ProductDimensions

SafetyFeatures

Anti-crush button

Warning horn

Support wheels for operator safety

MaxLoadWeight

See our website for full technical details

Castors

Moves up to 1,200 kg*

Rails

Moves up to 4,800 kg*

*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

Performance data

Product code	SM100+ SS
Recommended load weight - Castors	1200 kg
Recommended load weight - Rails	4800 kg
Machine weight including battery	87 kg
Drive type	Electric DC
Parking brake	Electromagnetic
Drive wheel type	Puncture-proof, non-marking
Drive motor power	2 x 0.22 kW
Controller type	110 DC Permanent
Variable machine speed	0.1 km/h - 5 km/h

Battery data

Battery pack - sealed - 22Ah 24V - fixed
Battery pack - sealed - 22Ah 24V - interchangeable

Charging options

Charger - external - 5A 24V - 85V-265V
Charger - internal - 3A 24V - 110V-240V

Male coupling options

Coupling - hydraulic - 50mm x 25mm (A frame)
--

Female coupling options

Coupling - adaptor - 50mm x 25mm - straight
Coupling - adaptor - 50mm x 25mm - angled

Options

Ingress Protection (IP)	IP42
Corrosion resistant stainless steel metalwork	316 Grade
Mechanically polished stainless steel	240-grit abrasive to 0.6µ satin finish
Stainless steel and polyurethane castors	304 Grade, non-marking
Stainless steel Ram	316 Grade
Stainless steel nuts and bolts	316 Grade (A4)
Stainless steel gas spring	316 Grade
Food quality hydraulic oil	ISO Standard 32
Food quality lubricating grease	Fully synthetic
